8:30am-5:15 pm

Registration Deadline
April 19th, 2010

Current Interventions in the Management of the Child with Cerebral Palsy

Treatment of a child with cerebral palsy is constantly evolving. This one day course will focus on the latest surgical procedures and therapy techniques. The material presented will be directed toward physical therapists, occupational therapists and orthotists.

Objectives

1. Develop an understanding of the latest orthopaedic and neurological surgical procedures for the upper and lower extremities in children with cerebral palsy
2. Learn how to utilize video gait analysis to help with proper lower extremity brace selection
3. Determine appropriate candidates and methods for upper extremity constraint induced therapy
4. Increase utilization of research into practice

Speakers

Jacques D'Astous MD, FRCS(C), is the Assistant Chief of Staff and Medical Director of the Movement Analysis Lab at Shriners Hospitals for Children – SLC. He is also an Associate Professor of Orthopaedic Surgery at the University of Utah and an Associate Staff at Primary Children's Medical Center.

Douglas T. Hutchinson, MD, is an Associate Professor of Orthopaedic Surgery at the University of Utah, has been the hand fellowship director at the University of Utah for thirteen years and is the chief of hand surgery at Primary Children's Medical Center, the Veterans Affairs Medical Center, and Shriners Hospitals for Children – SLC.

Allison Oki, MD, currently practices in adult and pediatric rehabilitation with a focus on spasticity management at the University of Utah and Primary Children's Medical Center.

Julie M Fritz, PT, PHD, ATC, is an Associate Professor at the University of Utah in the Department of Physical Therapy.

R. Scott Hosie, CPO, is a staff prosthetist/orthotist at Shriners Hospitals for Children – SLC.

Chris Pratt, OTR/L, is a staff therapist at Kids on the Move in Orem, Utah.

Amy Shuckra, PT, DPT, PCS, is a staff physical therapist in the Movement Analysis Lab at Shriners Hospitals for Children – SLC.

Beth Siebert, PT, DPT, and **Wende Oberg, OTR/L, ATP**, have worked at Primary Children's Medical Center for 20 years and are currently members of the spasticity management team.

Schedule

8:00-8:30	Registration
8:30-8:45	Welcome
8:45-10:00	Selective Dorsal Rhizotomy in Children with Hemiparesis Allison Oki, MD, Wende Oberg, OTR/L, and Beth Siebert, PT
10:15-11:30	30 Outcomes of tendoachilles lengthening (TAL) vs gastroc lengthening procedures in children with diplegia Jacques D'Astous, MD, FRCS(C)
11:30-12:00	Fast Fit DAFOs Cascade
12:00-1:00	Lunch
1:00- 2:15	Common upper extremity surgeries in children with cerebral palsy Douglas Hutchinson, MD
2:30-3:30	
Session 1:	Video gait analysis and proper brace selection Amy Shuckra, PT, DPT, PCS, and R. Scott Hosie, CPO
Session 2:	Constraint Induced therapy in the upper extremity patient – selection and application Chris Pratt, OTR/L
3:45-4:45	Putting evidence into practice Julie Fritz, PT, PHD, ATC
4:45-5:15	Medtronics
5:15	Closing

Credits

Estimated continuing education units (CEUs) for participation in this course is 7 CEUs. CEUs have been applied for through the UPTA, ABC and CME through joint sponsorship with the AAOS.

Registration deadline

April 19th, 2010

Register early as space is limited. Call for onsite registration availability.

Cancellation must be submitted before March 31st, 2010 for a full refund. Cancellation on or after March 31st will be refunded minus a \$20 administrative fee. No refunds after April 27th, 2010.

Registration cost

\$75 Non ACPOC member

\$50 ACPOC member

\$25 Full time student/resident
